## TuffRock Poultice Overview

TuffRock Poultice is the **world's first energised volcanic poultice** made from TuffRock's patented technology and formula of all-Australian, all-natural, ancient alumino-silicates and montmorillonite.

Fantastic for daily use as a preventative to shore up legs and muscles.

Apply directly onto wounds including major cuts to support fast healing.

Available in 2 sizes 1.8 kg pail and 8 kg bucket  
Larger hospital buckets made to order

### Benefits:

1. Use daily for support or as required on any area including legs, lumbar, sciatic, shoulders, flanks, hamstrings, metacarpal, pasterns, wind galls, allergies, and greasy heel. Nil Swab
2. Supports major wound healing (post-op), keeps flies off cuts and helps prevent proud flesh
3. Provides simple fast relief for muscle, ligament or tendon strains and relieves itching from insects or allergic reactions
4. Excellent support for racing, endurance, showjumping and polo
5. Extra energy added for almost instantaneous action on swelling
6. Easy to apply, sticks to injured areas, water-based for closer skin contact
7. Fast removal, simply hose off, does not stick to bandages
8. When used as a paint, problems areas remain damp to focus treatment

### Application:

For best results apply an even 5 mm thick layer every 12 - 24 hours. Can be used without bandaging. If bandaging, apply poultice, then moist paper, plastic and a light cotton wrap.

**Peter Roach, ex-Sydney legendary thoroughbred trainer licensed 51 years and still involved with winners !!!**

*“Best poultice I’ve ever seen in 51 years training horses ..... I have tried this product with success on my horses and seen the excellent (overnight) results from my colleagues who use it. We have used this product on many different injured areas including back sciatic and lumbar areas, shoulders, legs, heels, pasterns, flanks and even around the stifle (with no chaffing). It really works well and I can only recommend it as the best I’ve ever seen, every stable should have a tub.”*

**Graeme Spackman, Berrima's leading trainer,** “We have been using TuffRock Poultice since January 2005 and have extensively trialled this product hundreds of times comparing it to all others. During this time we watched TuffRock improve the formulae until its release in March 2006 and can understand why as fast as they make this poultice it sells. It is incredibly good for everyday use, after fast track work and is excellent for pre-training young horses. I have seen how it work 10 times faster on injuries compared to any other product even during the hottest summer conditions in Australia. I cannot recommend TuffRock Poultice highly enough; it is simply the best product in the world.”

## TuffRock Poultry Testimonials

### Albert Stapleford, legendary Australian Thoroughbred trainer (licensed 55 years)

I like TuffRock's Poultry because it works ..... better than anything I've seen in my lifetime

### Lyn Wood, Australian Polo Groom (32 years experience at elite competition)

TuffRock's energised poultry is absolutely amazing. I have never in my entire career with polo all over the world seen or heard about a better product. It is so simple and easy to use yet delivers results when I need them during tournament play. A fantastic product.

### Regina Buchanan, Showjumping

I cannot speak highly enough of the TuffRock Poultry, it is so much superior to any product on the world market you cannot compare the difference. We compete with 6 horses at any one time and I have tried every poultry, ice wrap or bandage from all corners of the globe including USA, UK, Sweden and Australia then I discovered early this year this new energised volcanic poultry from TuffRock. There is nothing like it anywhere in the world. I have seen it heal some incredible wounds that could not be stitched and I have experienced how good this has been for my horses. Anyone who cares for their horses should have this product.

### Jenny McKeown, Dressage, Ballendella VIC

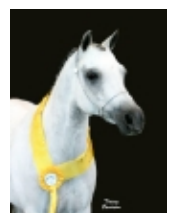

After an infection my horse developed Wind Galls just before the Victorian Championships at Werribee and I did not hold much hope of making it there, as my horse was also quite an anxious type. After consulting Steve Hurley from TuffRock I decided to try TuffRock Conditioner and Poultry. To cut a long story short we made it in to the competition and scored above 69% putting us in eighth place in our level. He was extremely calm and the leg held up fine. If it made such a difference in such a short timeframe, I can't wait to see the results when he is in full work. Thank you for such a great product, I will sing it's praises to all my horsey friends down here in Victoria.

### Nils and Wendy Euren, Quarter Horse Breeder, Wilberforce, NSW

"Doc Remington is one of our leading reining Quarter horses that decided to walk through a barbed wire fence and sit on a star picket post. We used the TuffRock Conditioner and TuffRock Poultry with some amazing results. After 10 weeks the products spoke for themselves there was no scarring, no proud flesh and no fly problems. We think the product is magic and have since been giving it to several of our friends for puncture wounds and leg injuries and all have experienced the same magic results. We recommend that every float should carry a tub of TuffRock Poultry for those unexpected emergencies".

### Barbara Smith, Yarraman Lodge, Buchanan

When I was given this product to try I told Steve that I probably would not use it, but boy was I wrong. My filly cut her back fetlock very badly three weeks prior to the Nationals and I was very upset that I would miss this show. Steve told me to use the Conditioner and Poultry daily, well after the 3 weeks the wound was completely healed, no scar!! Then she went to the Nationals and won. Well Done TuffRock!!
